

Silicone End Cap for 6x12mm LED Strip Channel, Orange (2000-Pack)

- Sized for 6×12mm LED strip channel profiles
- Molded from silicone for resistance to moisture, heat and chemicals
- Orange finish for consistent, professional channel termination
- Packed 2000 pieces per bag for large-scale installation projects
- Prevents dirt and dust ingress at channel end points

OVERVIEW

The M-N6-Cap-OR is a silicone end cap designed for 6×12mm LED strip channels, providing a clean termination point while sealing the channel end from contaminants. Each pack contains 2000 pieces in orange, suited for professional installation workflows requiring consistent, finished appearances across large-scale projects.

Constructed from silicone, these end caps offer resistance to moisture, heat, and chemicals, making them suitable for demanding installation environments. They prevent dirt and dust ingress at channel terminations, supporting long-term protection of the LED strip assembly.
