

Silicone End Cap for 6x12mm LED Strip Channel, Pink (2000-Pack)

- Sized for 6×12mm LED strip channel applications
- Silicone construction resists extreme temperatures, chemicals and moisture
- Suitable for indoor and outdoor installation
- Packaged 2,000 pieces per bag for bulk project use
- Pink color for easy channel-end identification
- Compact profile designed for straightforward field installation

OVERVIEW

The M-N6-Cap-P is a silicone end cap sized for 6×12mm LED strip channels, supplied in pink. Each bag contains 2,000 pieces, making this package well suited for contractors and installers working on large-scale or ongoing projects that require consistent sealing of channel ends.

These end caps are constructed from silicone, providing resistance to extreme temperatures, chemicals, and moisture. They are rated for both indoor and outdoor installations and feature a compact profile designed for straightforward field installation.
