

Silicone End Cap for 6x12mm LED Neon Flex Channel, Red (2000-Pack)

- Sized to fit 6×12mm LED neon flex channel profiles
- Red silicone construction resists extreme temperatures and chemicals
- Abrasion-resistant material supports long-term outdoor and indoor use
- Packaged 2,000 pieces per bag for bulk installation projects
- 1-year warranty coverage

OVERVIEW

The M-N6-Cap-R is a red silicone end cap sized for 6×12mm LED neon flex channels, pipes, or connectors. It seals the open end of the profile to prevent moisture ingress and to protect internal components from dust, debris, and other environmental contaminants.

Constructed from silicone, the end cap resists extreme temperatures, chemicals, and abrasion, supporting durable performance in demanding installation environments. Each package contains 2,000 pieces, suited for bulk projects requiring consistent, repeatable sealing across multiple runs.
