

Silicone End Cap for 6x12mm LED Neon Flex Channel, White (2000-Pack)

- Silicone construction resists heat, chemicals, and weathering
- Sized at 6×12mm to fit 6mm LED neon flex channels
- Packaged 2000 pieces per bag for bulk installation needs
- White finish for a clean, professional appearance
- Backed by a 1-year warranty
- Tool-free, adhesive-free installation

OVERVIEW

The M-N6-Cap-W is a white silicone end cap sized at 6×12mm, used to seal and protect the ends of 6mm LED neon flex and similar linear profiles against moisture, dust, and contaminants. Each bag contains 2,000 pieces, providing a bulk supply for contractors and installers handling large-scale runs.

Constructed from silicone, these end caps resist heat, chemicals, and weathering, supporting use across electronics, automotive, plumbing, and LED lighting installations. Installation requires no tools or adhesives.

Rated for a 1-year warranty, consistent with the LED neon flex components they are used with, which carry a 50,000-hour LED lifetime.
