

M-N6 Neon Flex End Caps, 12mm x 4mm Inner Dimensions, Dual Cable Holes, 1000-Pack

- Inner dimensions of 12mm x 4mm match the M-N6 profile geometry
- Two cable holes per cap for wiring pass-through and strain relief
- Packaged 1000 units per bag for bulk installation projects
- Matched to M-N6 Mini Neon Flex rated for 50,000 h LED lifetime
- Backed by a 1 year warranty on the M-N6 system

OVERVIEW

The M-N6 End Caps are termination components designed specifically for the M-N6 Mini Neon Flex system. Each cap provides a clean, finished end to neon flex runs and includes two cable management holes to accommodate wiring pass-through. Inner dimensions are 12mm x 4mm, matching the M-N6 profile geometry.

Packaged in bags of 1000 units, these end caps are suited for contractors and installers working on commercial or large-scale neon flex projects where consistent, professional terminations are required. The M-N6 system they terminate is rated for a 50,000 hour LED lifetime and carries a 1 year warranty.
