

Aluminum Channel for 8mm Neon Rope Light, 2.5m Length

- Aluminum construction for durability and wear resistance
- Sized for 8mm neon rope light for a precise, snug fit
- Supplied in 2.5m lengths per channel
- Conceals wiring and cables for a clean installation
- 1 year warranty coverage

OVERVIEW

The M-N8-Ch is an aluminum channel designed to house and protect 8mm neon rope lights. It provides a secure mounting solution that conceals wiring and cables, resulting in a clean, organized installation suitable for commercial and architectural lighting applications.

Constructed from aluminum, the channel is built for durability and resistance to wear over extended use. The profile is dimensioned for a precise fit with 8mm neon rope light, simplifying installation and supporting ongoing maintenance access. Each channel is supplied in 2.5m lengths.
