

8-Inch Union Connector for 8mm x 16mm Neon Rope Light

- Measures 8 inches in length for connecting rope light sections
- Compatible with 8mm x 16mm M-N8mm Neon Rope Light
- Locking connector design resists accidental disconnection
- Rated for 50,000 hour LED lifetime compatibility
- Backed by a 1 year warranty

OVERVIEW

The M-N8-Cnt-8 is an 8-inch union connector designed specifically for joining sections of 8mm x 16mm neon rope light. It is intended for professional installation applications where multiple rope light runs must be linked cleanly and securely without visible breaks in the installation.

Constructed from high-quality materials, the connector is built for durability and maintains a consistent appearance across joined sections. The locking connectors are designed to resist accidental disconnection, reducing the likelihood of field failures after installation is complete.
