

Single Color Power Cord for M-N8mm Neon Rope Light, 110V

- Designed specifically for M-N8mm neon rope light systems
- Configured for 110V power connection
- Supports LED lifetime rating of 50000 hours
- Backed by a 1 year warranty
- Provides a dedicated connection point for rope light installations

OVERVIEW

The M-N8-Cord is a single-color power cord designed specifically for use with M-N8mm neon rope light systems operating at 110V. It provides a reliable electrical connection between the power source and the rope light, serving as a necessary accessory for completing a neon rope light installation.

The cord is constructed for durable, consistent performance and is designed to integrate cleanly with M-N8mm neon rope light runs, supporting a uniform lighting output across the connected fixture. The associated LED lifetime rating for this rope light system is 50000 hours.

This accessory is backed by a 1 year warranty.
