

End Cap for 6mm LED Flex Neon, Termination Accessory

- Designed for use with 6mm LED flex neon strip
- Seals open ends of flex neon runs against dust
- Protects internal components from incidental contact
- Supports installations rated for 50,000 hour LED lifetime
- Backed by a 1 year warranty

OVERVIEW

The M-NF-Cap is an end cap designed for use with 6mm LED flex neon strip installations. It provides a clean, finished termination point at the open ends of flex neon runs, protecting the internal components from dust and incidental contact. It is intended as a companion accessory for LED flex neon rated at up to 50,000 hours of LED lifetime, supporting long-term installations where a sealed, finished end is required. The accessory is backed by a 1 year warranty.
