

Bendable LED Strip Light, 3000K Warm White, 8W/m, 6mm PCB, 10M Roll

OVERVIEW

The M-NR6-30K-LED-10M is a 3000K warm white LED strip light supplied on a 10-meter roll, designed for indoor accent, cove, and general-purpose lighting applications. Its 6mm PCB width and silicone construction allow flexible routing in tight or curved installations.

The strip operates at 12V DC and draws 8W per meter, with SMD2835 chips at 120 LEDs per meter and a CRI of 80. IP20 rating limits use to dry, indoor environments. The strip is cuttable every 2.5cm to accommodate custom run lengths.

This product carries RoHS compliance. CE is noted in product records but has not been confirmed against a source datasheet. No warranty term is available in current documentation.

SPECIFICATIONS

CCT	3000 K	LED chip	SMD2835
CRI	80	Chip density	120 LEDs/m
IP rating	IP20	Material	Silicone
Input voltage	12 V	Roll length	10 m
Power	8 W/m	Certifications Raw	CE, RoHS
