

## Red Silicone LED Strip Light, 12V 8W/m, 120 LEDs/m, IP20, 10M Kit

### OVERVIEW

The M-NR6-R-SILC-M is a red silicone LED strip light kit supplied in a 10-meter length, suitable for indoor decorative and accent lighting applications in commercial and residential installations.

The strip operates on 12V DC and draws 8W per meter, with a chip density of 120 SMD2835 LEDs per meter and a CRI of 80. The silicone construction provides flexibility and durability across a range of installation conditions. The IP20 rating is appropriate for dry indoor environments.

This product carries RoHS compliance. CE marking is noted in product records but has not been confirmed against source documentation. No warranty term is specified in available data.
