

T or L-Shape COB Connector for 8mm Single-Color IP20 COB Strip, No-Dark-Area, 5-Pack

- T-shape or L-shape configuration for branching or turning strip runs
- Compatible with 8mm single-color COB strip PCB
- IP20 environmental rating for dry indoor locations
- No-dark-area design maintains uniform light output at joints
- Maximum current rating of 3A
- Sold in bags of 5 pieces

OVERVIEW

The M-Z-CON2-8-C-T is a T-shape or L-shape solderless COB connector designed for 8mm single-color COB LED strip lights rated IP20. It provides a no-dark-area connection point, making it suitable for continuous-run installations where maintaining uniform light output through junctions and direction changes is critical.

Typical applications include cabinet lighting, display case runs, and architectural cove work where strip routing requires branching or turning. The connector is rated for a maximum current of 3A and is compatible with 8mm single-color COB strip PCBs. No cable is included; the connector interfaces directly strip-to-strip. Each bag contains 5 pieces.

SPECIFICATIONS

ELECTRICAL

Current Draw 3 A

MECHANICAL

Strip Width 8 mm
0.31 in

ENVIRONMENTAL

IP Rating IP20

APPLICATIONS

- Cabinet lighting
- Display case lighting runs
- Architectural cove lighting
- Retail shelf lighting corners
