

IP20 8mm COB Strip Connector Without Cable, 5-Pack, Solderless

- IP20 rating suited to dry, indoor installation environments
- Sized for 8mm COB LED strip width
- Solderless, cable-free connection between strip segments
- Sold in a 5-piece pack for multi-run projects
- 1-year warranty coverage
- Compatible with COB strips rated for 50,000-hour LED lifetime

OVERVIEW

The M-Z-CON2-8-C is an IP20-rated solderless connector designed for joining 8mm COB LED strip runs without the need for additional cables. Its compact form factor suits installations where space is limited, and the secure locking mechanism reduces the risk of accidental disconnection during and after installation.

The connector is built for reliable electrical contact under normal indoor operating conditions, consistent with its IP20 rating. The intuitive tool-free design simplifies field installation and reduces labor time when terminating or extending COB strip runs.

Backed by a 1-year warranty, matching the 50,000-hour rated life of compatible 8mm COB strips.

SPECIFICATIONS

OPTICAL

LED Lifetime	50,000 h
