

Strip-to-Strip Transparent Connector,
2-Pin 10mm PCB, IP67 Waterproof, 5-Pack

- 2-pin design for 10mm PCB bicolor COB and SMD strips
- IP67 rated for dust and temporary water immersion protection
- Transparent housing for minimal visual interruption at joints
- Cable-free strip-to-strip connection for faster installation
- Sold in 5-piece bag for multi-run projects
- Backed by 1-year warranty

OVERVIEW

The M-Z-CON2-C-IP67 is a strip-to-strip connector designed for 10mm PCB bicolor COB LED strips, providing a direct, cable-free connection between two strip segments. Its transparent construction minimizes visual interruption at the junction point, making it suitable for installations where a clean, continuous appearance is required.

Rated IP67, the connector is protected against dust ingress and temporary water immersion, supporting use in both indoor and outdoor environments where moisture exposure is a concern. The tool-free design simplifies installation and reduces labor time in professional LED lighting applications.

Backed by a 1-year warranty, and compatible with strips rated for a 50,000-hour LED lifetime.

SPECIFICATIONS

OPTICAL

LED Chip Type	COB
LED Lifetime	50,000 h

MECHANICAL

Strip Width	10 mm 0.39 in
Material	Transparent plastic

ENVIRONMENTAL

IP Rating	IP67
