

L - Connector for IP20 10mm Single-Color SMD 5050 LED Strip, Two-End (5-Pack)

- Fits 10mm wide SMD 5050 single-color IP20 LED strips
- Connects two strip ends without soldering or tools
- Sold in 5-pack for multiple connection points per project
- L-shaped design suited for corner and tight-space runs
- Backed by a 1-year warranty

OVERVIEW

The M-Z-CON2-L is an L-shaped connector designed to join two runs of 10mm wide, single-color SMD 5050 LED strip lights in IP20-rated installations. It provides a secure, tool-free connection between strip ends, making it suitable for residential and commercial applications where a clean, wire-free appearance is required.

The connector's compact form allows installation in confined spaces without compromising connection integrity. By eliminating exposed wiring at the junction point, it supports a uniform lighting result across connected strip segments.

SPECIFICATIONS

OPTICAL

LED Chip Type	SMD 5050
LED Lifetime	50,000 h

MECHANICAL

Strip Width	10 mm 0.39 in
