

3-Pole Male Cable Assembly, 13 cm Lead Length

- 3-pole male connector configuration
- 13 cm lead length for compact wiring runs
- Mates with compatible female ports for power or data connections
- Compact form factor suited to space-constrained installations
- Durable construction for consistent connectivity over extended use

OVERVIEW

The M-Z-SP3-CA-F is a 3-pole male cable assembly with a 13 cm lead length, designed for use with compatible electronic devices and systems. The male connector interfaces with corresponding female ports to support data transfer or power supply connections in compact wiring applications.

Constructed for reliable performance in professional environments, the assembly features a compact form factor that facilitates installation in space-constrained configurations. Its durable build is intended to maintain consistent connectivity over extended use.

SPECIFICATIONS

ELECTRICAL

Input Connection Type	3-Pole Male
Wire Length	13 in

APPLICATIONS

- LED strip interconnection
- Control module wiring
- Panel-to-panel connections in enclosures
- Signage assembly wiring
