

3-Pole Female Cable Assembly, 13 cm Lead Wire Connector for LED Strip Connections

- 3-pin female connector interface for compatible mating plugs
- 13 cm lead wire length for compact routing
- 3-conductor configuration for power and signal transmission
- Constructed with high-quality materials for reliable connections

OVERVIEW

The M-Z-SP3-CA-M is a 13 cm, 3-pin female cable assembly intended for connecting devices and components that require a female connector interface. Its compact lead length keeps installations tidy while providing sufficient reach for typical wiring configurations in lighting and control applications.

Constructed with high-quality materials, the assembly is designed for reliable power and signal transmission across its 3-pin configuration. The short 13 cm lead length suits space-constrained enclosures or junction points where excess cable management would be impractical.

SPECIFICATIONS

ELECTRICAL

Wire Length 13 in

APPLICATIONS

- LED strip interconnects
- Junction box wiring
- Control system connections
- Space-constrained enclosures
