

Double-Sided Tape, 1 In. x 100 Ft. (30 m) Roll for LED Strip and Signage Mounting

- Roll measures 1 in. x 100 ft. (30 m) for long continuous runs
- Suitable for mounting LED strip lights and channel letters
- Backed by a 1-year manufacturer warranty
- Rated for 50,000 hours of use in LED strip applications

OVERVIEW

Double-sided tape in a 1 in. x 100 ft. (30 m) roll, intended for mounting and securing LED strip lights, channel letters, signage components, and similar fixtures to flat or low-profile surfaces. The roll format allows continuous application across long runs without seams, simplifying installation on channel letters, cabinet signs, and strip-light channels. Backed by a 1-year warranty.
