

Grommet #2 Steel Chrome Silver Back
Flat Piece, 10mm Hole / 21mm OD,
1000-Pack

- Steel construction with chrome silver finish
- 10mm hole diameter for standard grommet hardware
- 21mm outer diameter back flat piece
- Packaged 1,000 pieces per bag for bulk fabrication use
- 1-year warranty coverage

OVERVIEW

The MC-GR2-1000-Back is a #2 steel chrome silver grommet back flat piece, designed for use in banner finishing, signage fabrication, and general canvas or vinyl reinforcement applications. The back flat piece works in conjunction with a matching front grommet to secure and reinforce hole openings, preventing tearing at attachment points. Each unit features a 10mm hole diameter and a 21mm outer diameter. This bag contains 1,000 pieces, making it suitable for production-volume sign shops and fabrication operations.
