

Steel Chrome Silver Grommet #2 Back
Flat Piece, Outdoor Use, 10/21mm

- Steel construction with chrome silver finish
- Back flat piece for two-part grommet assembly
- 10mm hole diameter, 21mm outer diameter
- Rated for outdoor use on exterior signage materials
- Packaged 1,000 pieces per bag
- 1-year warranty

OVERVIEW

The MC-GRC2-500-Back is a #2 steel chrome silver grommet back flat piece designed for outdoor use. It serves as the rear washer component in a two-part grommet assembly, used to reinforce and finish punched holes in banners, tarps, signage substrates, and other flexible or rigid materials exposed to exterior conditions.

The grommet accepts a hole diameter of 10mm with an overall outer diameter of 21mm. Constructed from steel with a chrome silver finish, it is rated for outdoor applications. Sold in bags of 1,000 pieces.

Backed by a 1-year warranty.
