

Heat Shrink Tubing, 10mm Thin Wall, Black, Sold Per Foot

- 10mm thin wall diameter for low-profile coverage over conductors
- Black finish for standard wire and cable insulation applications
- Sold per foot for flexible order quantities on custom runs
- Rated for 50,000 hour service life
- Backed by a 1 year warranty

OVERVIEW

MC-HS10.0 is a 10mm thin wall heat shrink tubing supplied in black and sold by the foot. It is suited for wire bundling, insulation, and strain relief applications in electrical and lighting installations where a low-profile sleeve is required over conductors, connectors, or terminations.

The tubing is rated for a 50,000 hour service life and carries a 1 year warranty, supporting long-term use in fixed installations where the sleeve remains in place over the life of the wiring.
