

Heat Shrink Tubing, 6mm Thin Wall, Black, Sold Per Foot

- 6mm thin wall diameter for close-fitting insulation coverage
- Black finish for standard wire and cable identification
- Sold per foot for flexible order quantities
- Backed by a 1 year warranty
- Rated for 50,000 hours of service life

OVERVIEW

MC-HS6.0 is a 6mm thin wall heat shrink tubing in black, sold per foot. It is designed for insulating, bundling, and protecting wire terminations and cable assemblies in commercial and industrial electrical installations. The tubing shrinks around wires and connectors to provide a snug protective covering suitable for field electrical work and signage wiring. It carries a 1 year warranty and a rated life of 50,000 hours.
