

8mm Thin Wall Heat Shrink Tubing,
Black, Sold Per Foot

- 8mm thin wall heat shrink tubing diameter
- Black finish for standard wire and cable insulation
- Sold per foot for job-specific quantity ordering
- 1 year warranty coverage
- Rated for 50000 h service life

OVERVIEW

MC-HS8.0 is an 8mm thin wall heat shrink tubing supplied in black. It is intended for wire bundling, insulation, and strain relief applications in electrical, lighting, and signage installations where a low-profile sleeve is required over conductors or connections. This tubing is sold per foot, allowing contractors to purchase only the quantity needed for a given job.
