

Measuring Tape 8M — Yellow, Locking Blade for Job Site Use

- 8-meter blade length for extended reach on job sites
- Yellow housing for high visibility in work environments
- Black markings printed on blade for clear readability
- Secure locking mechanism holds measurement in place
- Ergonomic housing designed for comfortable extended handling
- Backed by a 1-year warranty

OVERVIEW

The MC-MT-8M is an 8-meter measuring tape intended for use in professional construction, installation, and general contracting applications. The yellow housing provides high visibility on job sites, and the blade features clear black markings to support accurate readings across its full length.

The tape includes a secure locking mechanism to hold measurements in place during use, and the ergonomic housing is designed for extended handling comfort. The blade construction is noted for durability and resistance to wear under regular field conditions.

The product carries a 1-year warranty.
