

Yellow Auto-Lock Cutter Tool for LED Neon Flex Installation

- Auto-lock mechanism enables repeatable, controlled cuts
- Yellow housing for high visibility on job sites
- Designed for use with LED neon flex and similar flexible lighting
- Backed by a 1 year warranty

OVERVIEW

The MC-NF-201 is a yellow auto-lock cutter tool designed for use with LED neon flex and similar flexible lighting products. The auto-lock mechanism allows for controlled, repeatable cuts during installation and termination work.

The tool is suited for field use by installers and technicians who need consistent, clean cuts on flexible lighting materials without a separate locking step for each cut.

The MC-NF-201 carries a 1 year warranty.

SPECIFICATIONS
