

Small Metal Jacket Blade Wheel Lock, 5-Inch

- Metal jacket blade construction
- Wheel lock mechanism for secure fastening
- Compact 5-inch form factor
- 1-year warranty

OVERVIEW

The MC-NF-302 is a small metal jacket blade with a wheel lock mechanism, designed for secure fastening and locking applications in commercial and industrial installations. The compact 5-inch form factor suits environments where space constraints require a low-profile hardware solution.

The unit carries a 1-year warranty.
