

Soft Squeegee, Light Green, 5 in x 3 in,
Vinyl Wrap and Film Application Tool

- Compact 5 in x 3 in blade sized for detail and edge work
- Light green soft-durometer material conforms to contoured surfaces
- Reduces risk of scratching or marring sensitive vinyl and film substrates
- Backed by a 1-year manufacturer warranty

OVERVIEW

The MC-SQ-03A is a light green soft squeegee measuring 5 inches by 3 inches, designed for use in vinyl wrap, film application, and surface preparation tasks common in sign installation and graphics work. The soft durometer construction allows the blade to conform to contoured surfaces without scratching or marring sensitive substrates. Backed by a 1-year warranty, it is suited for installers who need a compact tool for edge work and detail areas where a rigid squeegee would not conform.
