

Soft Squeegee with Handle, Yellow, 5.75 In.

- Yellow soft blade construction for gentle surface contact
- Integrated handle for improved grip during application
- Overall length of 5.75 inches
- Backed by a 1-year warranty

OVERVIEW

The MC-SQ-05A is a yellow soft squeegee with handle, measuring 5.75 inches in length. It is used for applying and smoothing vinyl graphics, window films, and similar surface materials during installation work. The soft blade design allows for controlled pressure when working with delicate substrates, reducing the risk of surface damage during application.
