

Illuminated See-Saw On/Off Switch, Rocker Style, Panel Mount

- Illuminated rocker (see-saw) design confirms on/off state visually
- LED indicator rated for 50,000 hours of service life
- Panel-mount configuration for equipment and control panel installation
- Backed by a 1-year manufacturer warranty

OVERVIEW

The MC-SW25 is an illuminated see-saw (rocker) on/off switch designed for use in commercial and industrial lighting control applications. Its built-in illumination allows operators to confirm switch state at a glance, making it suitable for panel-mount installations where clear visual indication is required.

The internal LED indicator carries a rated life of 50,000 hours, supporting long-term use in equipment that runs continuously or in high-cycle environments. The unit is backed by a 1-year warranty.
