

## Automatic Hand Soap Dispenser, 1000mL Refillable, Wall Mount or Floor Stand

### OVERVIEW

The MD-Disp-1L is an automatic, touchless hand soap dispenser designed for commercial and institutional environments including offices, restrooms, healthcare facilities, and food service areas. It accommodates foam, liquid soap, gel, and alcohol-based hand sanitizer in a 1,000 mL refillable bottle. Wall mount and floor stand installation options are both supported, providing flexibility for a range of facility layouts.

The unit operates via an infrared proximity sensor for fully automatic, no-contact dispensing. Power is supplied either by DC adapter (6V/1A, 5.5/2.1mm connector) or four C-size (R14) batteries, supporting locations with or without convenient outlet access. The dispenser also incorporates a UV disinfection function. The housing is ABS plastic in white, measuring approximately 10.3 in. H x 4.7 in. W x 4.5 in. D and weighing 1.7 lbs.

No certifications have been confirmed in the available source documentation. Contractors and facility managers should verify applicable code compliance requirements for their jurisdiction prior to specification. No warranty terms are stated in the current source data. Contact Poli LED & Signs for additional documentation.
