

Automatic Sanitizer Dispenser with Stand, Drip Tray & UV Disinfection, 1000mL

- Freestanding stand with integrated drip tray, black finish
- Constructed of ABS material
- Refillable 1000ML bottle capacity
- UV disinfection function targets the hand during use
- DC powered at 6V/1A via 5.5/2.1mm connector
- Battery powered option using 4 pcs R14 size C batteries (not included)

OVERVIEW

The MD-Disp-Stand-BK-KIT is an automatic sanitizer dispenser mounted on a black-finish freestanding stand with an integrated drip tray. It is designed for commercial and institutional environments where a hands-free, floor-mounted dispensing solution is required, such as entryways and high-traffic areas.

The unit uses ABS material and holds a refillable 1000ML bottle. It includes UV disinfection intended to act on the hand during dispensing. Power is supplied via DC input (6V/1A, 5.5/2.1mm) or by battery power using 4 pcs R14 size C batteries, which are not included. Overall dimensions are 130*115*270mm.

SPECIFICATIONS

ELECTRICAL

Operating Voltage	6 V
