

Automatic Sanitizer Dispenser with UV Disinfection, 1000mL Refillable, ABS — Discontinued

- ABS housing measuring 130 × 115 × 270mm
- 1,000mL refillable reservoir for extended use between fills
- Integrated UV disinfection stage rated 50,000h LED life
- Dual power support: DC 6V/1A or 4x R14 (C-size) batteries
- 5.5/2.1mm DC barrel connector for wired operation
- 1-year warranty, discontinued item sold as-is

OVERVIEW

The MD-Disp-Stand-BK is an automatic touchless sanitizer dispenser designed for commercial and light industrial environments where hand hygiene compliance is required. The unit features a 1,000 mL refillable reservoir and an integrated UV disinfection function intended to reduce surface contamination on hands after dispensing.

The dispenser is constructed from ABS material and measures 130 × 115 × 270 mm. It supports dual power input: DC 6V/1A via a 5.5/2.1 mm barrel connector, or four R14 (C-size) batteries, providing installation flexibility where a wired power source is not available. The UV component is rated for 50,000 hours of LED life.

This item is discontinued and is sold as-is with no returns or exchanges. A 1-year warranty applies.

SPECIFICATIONS

OPTICAL

LED Lifetime 50,000 h

ELECTRICAL

Operating Voltage 6 V

Current Draw 1 A

Input Connection Type DC barrel 5.5/2.1mm

MECHANICAL

Product Dimensions 130×115×270mm
