

Automatic Sanitizer Dispenser with Stand, Drip Tray & UV Disinfection, 1000 mL

- Refillable 1000 mL bottle reservoir for sanitizer fluid
- ABS material housing rated for commercial use
- UV disinfection function to kill virus on the hand
- Includes floor stand and drip tray for hands-free operation
- DC powered at 6V/1A via 5.5/2.1mm connector, or battery operated (4 pcs R14 size C, not included)
- Compact footprint of 130 × 115 × 270 mm

OVERVIEW

The MD-Disp-Stand-WT-KIT is an automatic sanitizer dispenser unit configured with a floor stand, drip tray, and UV disinfection capability, with a 1000 mL reservoir capacity. This type of unit is suited for high-traffic commercial and industrial environments where hands-free sanitation and surface hygiene are operational priorities.

The housing is constructed of ABS material with overall dimensions of 130 × 115 × 270 mm. Power is supplied via a DC input (6V/1A, 5.5/2.1mm connector) or by battery power using 4 pcs R14 size C batteries, which are not included. The unit is finished in white.

SPECIFICATIONS

ELECTRICAL

Operating Voltage	6 V
Current Draw	1 A
Input Connection Type	DC 5.5/2.1mm barrel connector

MECHANICAL

Product Dimensions	130 × 115 × 270 mm
Finish	White
Material	ABS
Mounting	Floor stand

APPLICATIONS

- Commercial building entrances
- Office lobbies
- Retail storefronts
- Industrial facility floors
- Healthcare waiting areas
