OVERVIEW

The P-S60-5-UL is an outdoor-rated power supply designed to convert 110VAC input to 5VDC output for low-voltage applications including outdoor lighting, security cameras, and similar equipment. Its aluminum alloy housing is rated IP67, making it suitable for direct exposure to the elements in commercial and industrial installations.

The unit delivers 60W of continuous output at 5VDC. Dimensions are 9 × 3 × 2 in with a shipping weight of approximately 1.3 lb, allowing integration into space-constrained enclosures or mounting locations. It is rated for ambient operating temperatures from -30 to 50 C.

This power supply carries UL certification and a 1-year warranty, confirming it has been evaluated to applicable safety standards for use in outdoor environments.
