

Two-Gang Wall Plate, Bronze with Patina Finish

- Two-gang configuration for dual switch or receptacle openings
- Bronze finish with patina treatment for a period aesthetic
- Suited to retrofit installations requiring a non-plastic plate
- Alternative to brushed-metal plates for design-specific projects

OVERVIEW

The PL-BP-2 is a two-gang wall plate finished in bronze with a patina treatment, intended for decorative electrical installations where a period or industrial aesthetic is required. Suitable for commercial and residential retrofit applications where standard plastic or brushed-metal plates are not appropriate for the design specification.
