

Three-Gang Wall Plate, Bronze Finish with Patina

- Three-gang configuration for multi-device wall openings
- Bronze finish with applied patina treatment
- Suited to traditional or aged-metal architectural hardware schemes
- Accommodates multi-switch or multi-outlet device arrangements

OVERVIEW

The PL-BP-3 is a three-gang wall plate finished in bronze with a patina treatment, intended for commercial and residential electrical installations where a traditional or aged-metal aesthetic is required. It is suited for multi-switch or multi-outlet configurations in lobbies, corridors, hospitality spaces, and similar environments where finish consistency with architectural hardware is a priority.
