

Stripped Brass 3-Gang Wall Plate for Switch and Outlet Assemblies

- Configured for 3-gang switch or outlet openings
- Finished in stripped brass for a raw, unlacquered metal look
- Constructed as a solid metal cover plate
- Consolidates three devices into a single wall plate

OVERVIEW

The PL-S-3 is a 3-gang wall plate finished in stripped brass, designed for commercial and residential electrical installations requiring a durable, metal-finish cover for multi-device switch or outlet configurations. The stripped brass finish provides a raw, unlacquered metal appearance suited to industrial or vintage-style interiors. It accommodates three device openings in a single plate for consolidated switch or receptacle layouts.
