

Wall Plate, 4 - Gang, Satin Brass Finish

- 4-gang configuration for grouped device installations
- Satin brass finish for coordinated decorative appearance
- Suited for both commercial and residential applications
- Compatible with multi-device switch, outlet, or control layouts

OVERVIEW

The PL-SB-4 is a 4-gang wall plate finished in satin brass, intended for commercial and residential electrical installations requiring a coordinated, professional appearance. It accommodates multi-device configurations such as grouped switches, outlets, or controls installed side by side on a single wall opening.

The satin brass finish provides a consistent decorative look across multi-gang installations, allowing the plate to match adjacent hardware or fixtures specified in the same finish family.
