

Vintage Brass Single - Gang Wall Plate, 1 Gang Cover Plate

- Single-gang configuration for standard electrical boxes
- Vintage brass finish for a traditional decorative appearance
- Suitable for covering switches, outlets or similar single-gang devices
- Applicable to both commercial and residential installations

OVERVIEW

The PL-VB-1 is a single-gang wall plate finished in vintage brass, intended for use in commercial and residential electrical installations where a traditional aesthetic is required. It is suited for standard single-gang electrical boxes and provides a decorative cover for switches, outlets, or other single-gang devices.
