

White 2 - Gang Wall Plate for Dual-Device Installations

- Two-gang configuration covers dual-device openings
- White finish for a clean, uniform appearance
- Suited for commercial and light industrial installations
- Fits standard switch, outlet, or control device locations

OVERVIEW

The PL-WH-2 is a white 2-gang wall plate designed for standard dual-device electrical installations. It covers two adjacent switch, outlet, or control device openings in a single unit.

It is suited for commercial and light industrial environments where a clean, finished appearance is required at device locations.
