

Bubbles Chandelier – Hand-Frosted Glass Spheres, 18W, IP20, Gold & White

OVERVIEW

The Bubbles Chandelier (RS-CH-BUBBLES) is a decorative pendant fixture featuring an organic cluster of individually hand-frosted glass spheres suspended on fine metal chains. Three central E27 light sources cast a soft glow refracted through the surrounding glass, making it suitable for dining rooms, lobbies, and commercial interior spaces where architectural lighting detail is a priority.

The fixture operates at 18W with a 6000K color temperature and is rated at 100 lm/W. Input voltage is 120V–240V AC. Included bulbs are non-dimmable; dimmable LED replacements are compatible if dimming control is required. Rated operating life is 50,000 hours. The unit carries an IP20 rating, suitable for dry indoor environments only. The chandelier body is constructed of alabaster with a gold and white finish, measuring 15.7 x 29.5 in (40 x 75 cm).

No certifications are confirmed in the available source documentation. Consult your Poli LED & Signs representative for compliance documentation relevant to your jurisdiction.

SPECIFICATIONS

Power	18 W	Input voltage	120-240 V AC
