

## Disanu Floor Lamp – 13W Crack Glass Globe, Iron Base, Brass Finish

### OVERVIEW

The Disanu Floor Lamp (RS-FL-DISANU) is a decorative ambient light fixture constructed from iron and crack glass. Its vertical rod supports three crack glass globes arranged in a layered configuration, with a cylindrical iron base providing structural stability. Finished in brass, it is suited for living rooms, lounges, and bedrooms where both illumination and aesthetic presence are required.

The fixture operates at 13W across a 120V–240V AC input range and is rated for 50,000 hours of service life. With an efficacy of 110 lm/W, it delivers efficient ambient output for residential interior environments. The IP20 rating designates it for dry indoor use only; it is not suitable for damp or wet locations.

No certifications are confirmed in the available source data. Consult your Poli LED & Signs representative for compliance documentation applicable to your jurisdiction.

### SPECIFICATIONS
