

Indoor Wall Light, Alabaster & Brass, 8W Integrated LED, 3000K

OVERVIEW

The FALYNIS 24 is an integrated LED indoor wall light constructed from alabaster and brass, designed for interior architectural applications where material quality and refined aesthetics are a priority. Its slim profile measures 2.3" x 23.6" and suits a range of interior styles from minimalist to contemporary.

The fixture operates on 8W of power with a wide input voltage range of 90–260VAC, making it compatible with standard U.S. and international supply. It delivers approximately 110 lm/W at a 3000K color temperature and carries a rated LED lifespan of 50,000 hours, reducing maintenance requirements in commercial and residential installations.

No certifications are confirmed in the available source data. Consult your Poli LED & Signs representative for compliance documentation relevant to your project specifications.

SPECIFICATIONS

Power	8 W	Input voltage	90-260 VAC
Luminous flux	880 lm	Rated life	50000 h
CCT	3000 K	Dimensions	2.3 x 23.6 in

DIMENSIONS

	x 60cm, 3K, 90-260VAC, 8W, 110 lm/W
