

## Cupola Alabaster & Copper Pendant Light, IP20, 120–240V

### OVERVIEW

The Cupola Pendant Light (RS-PL-CUPOLA) is a dome-shaped decorative pendant constructed from alabaster marble and copper-finished metal. Its translucent alabaster shade diffuses light to produce a warm, ambient glow, making it suited for interior commercial and residential accent lighting applications where aesthetic finish is a priority.

The fixture operates on 120–240V AC input and carries an IP20 environmental rating, designating it for dry, non-waterproof indoor installations only. Efficacy is rated at 100 lm/W, and the light source is rated for 50,000 hours of service life. The pendant measures 11.8 in (30 cm) in diameter and is available in White and Black finish options.

No certifications are confirmed in the available source data. Contractors should verify local code compliance and applicable listing requirements prior to specification.
