

Alabaster Marble Linear Pendant Light, Stainless Steel, IP20, 39.3 in

OVERVIEW

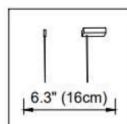

The Harka (RS-PL-HARKA) is a linear pendant light designed for interior applications where both illumination quality and aesthetic character are priorities. Its alabaster marble shade and stainless steel body deliver a warm, natural ambiance suited to commercial and residential interior spaces. The fixture is rated IP20, making it appropriate for dry, non-waterproof environments.

The Harka operates on 120V–240V AC input and is rated for 50,000 hours of service life. Luminous efficacy is specified at 100 lm/W. The fixture measures 39.3 in (100 cm) in length. No certifications are confirmed in the available source data.

SPECIFICATIONS
