

Trimless Gypsum Wall & Ceiling Light, 10W, IP20, Minimalist Plaster Fixture

OVERVIEW

The Onexa Trimless Wall Light (RS-PWL-ONEXA) is a gypsum and metal plaster fixture designed for seamless integration into wall and ceiling surfaces. Its trimless profile eliminates visible edges, producing a flush, minimalist finish suited for living rooms, hallways, and contemporary commercial interiors.

The fixture operates at 10W across a 120V–240V AC input range and delivers an efficacy of 110 lm/W, providing warm, diffused ambient illumination. Rated IP20 for dry indoor environments, it carries a rated service life of 50,000 hours. Overall dimensions are 13.7 x 11.4 in (35 x 29 cm).

No certifications are confirmed in available source data. Consult your Poli LED & Signs representative for warranty terms and compliance documentation applicable to your project.
