

Floating LED Table Lamp, 2700K Warm White, E27 Socket, 110V US Plug

- Floating two-piece design with wood base and white globe
- Base measures 5.9 in diameter x 1.2 in height
- Upper globe measures 2.4 in diameter x 4.5 in height
- 2700K warm white color temperature
- E27 socket for standard lamp bulb compatibility
- 110V operating voltage with US plug

OVERVIEW

The RS-TL-FLOAT is a floating-design LED table lamp intended for decorative interior applications such as hospitality, residential accent lighting, and display environments. It operates on 110V with a standard US plug and produces 2700K warm white light through an E27 socket.

The lamp consists of two components: a wood-finish base measuring 5.9 in diameter x 1.2 in height and a floating white upper globe measuring 2.4 in diameter x 4.5 in height.

The product is backed by a 1 year warranty.
