

Ceramic E27 Socket for Pole Light with 10 In. Lead Cable

- Ceramic construction resists heat, moisture, and corrosion
- E27 base compatible with incandescent, LED, and CFL bulbs
- Includes 10-inch lead cable for direct wiring connection
- Rated for 50,000 hour LED lifetime
- Backed by a 1-year warranty

OVERVIEW

The S-E27-Ceramic is a ceramic E27 lamp socket designed for use in pole-mounted outdoor lighting fixtures. Its primary application is as a replacement or installation socket in outdoor pole lights, providing a secure and reliable lampholder connection in exposed environments.

Constructed from high-quality ceramic, the socket offers resistance to heat, moisture, and corrosion, making it well suited for outdoor installations. It accepts incandescent, LED, and CFL bulbs, and includes a 10-inch lead cable for straightforward wiring without the need for additional extensions.
