

# G13 Bi-Pin Socket for T8 LED Tubes, 50,000 h Rated Lifetime

- G13 bi-pin interface matches standard T8 LED tube base
  - Rated for 50,000 hour service lifetime
- Backed by a 1-year warranty
  - Suited to both retrofit and new-construction fixture applications

OVERVIEW

The S-T8-G13 is a G13 bi-pin socket designed for use with T8 LED tubes. It provides the standard pin interface required to seat and connect T8 lamps in compatible fixture housings, making it a practical component for retrofit and new-construction lighting installations.

The socket is rated for a lifetime of 50,000 hours, aligning its service life with common T8 LED tube ratings and reducing the need for socket replacement during relamping cycles.

The product carries a 1-year warranty.
