

R17D Cap for T8 LED Tube Light,
50,000 Hour Rated LED Compatibility

- R17D pin configuration matches T8 LED tube light base requirements
- Rated for compatibility with 50,000 hour LED lifetime
- Backed by a 1 year warranty
- Suitable as a retrofit or repair component for existing T8 fixtures

OVERVIEW

The S-T8-Pin-R17D is an R17D replacement cap designed for use with T8 LED tube lights. It serves as a retrofit or repair component, providing the correct pin configuration for T8 lamp installations that require the R17D base type.

The cap is rated for compatibility with LED sources having a 50,000 hour lifetime, supporting long-term retrofit applications, and is backed by a 1 year warranty.
